Subject: Recommendation of David Bosak as Construction Project Manager

Mr. Bosak was selected as the project manager for the renovations of the Wilson Primary School administration/ classroom/ security remodel and the District Administration update.

Mr. Bosak's punctuality, organization, planning and oversight were very well communicated, precise and thorough. Scheduled meetings were well planned with agendas and communication opportunities for all. Ongoing emails and availability for communications kept us up to date on construction activity. I was most impressed with his ongoing commitment to on-site project oversight and continual monitoring of the contractor's quality of materials and workmanship.

Mr. Bosak's concern about cost helped the project stay on course. He was very sensitive to student needs and adapted the project schedule to work with District schedules.

Thanks to Mr. Bosak, Wilson has a project that will serve the community and students long-term both in appearance and functionality.

Sincerely,

Denise Finell
Retired business Manager,
Wilson Elementary School District
